What's New in the Xtend?

Xtend is a customizable application designed for enhancing the control and productivity of trading operations. From streaming quotes and one-click trading to innovative features like Drag-and-Drop Symbols, detailed trade

views, and ladder trading, Xtend is an easy-to-use trading software for today's fast -moving markets. Revolutionary Trading Interface Xtend takes the traditional trading interface and turns it on its head. Xtend's unique interface is designed to be easily viewed from a multitude of viewpoints. Whether you're a novice or experienced trader, Xtend is the ideal trading software for you. Customizable Trading

Operations Xtend allows the user to customize his trading operations. From creating customized graphs and charts to the integration of live price and news feeds, you can put your own trading fingerprints on the program. No other program offers the trading features you desire. Automated Market Alerts Xtend allows you to be alerted to the latest changes in market conditions that occur within

the time frame you select. Market alerts are sent to the program's interface, giving you the opportunity to monitor and react to market developments as they occur. I have been using Xtend for more than six months and it has been a real joy to work with. The fact that it is a fully featured application with detailed back office services makes it a joy to use. I strongly recommend it to anyone who is looking for

an application that supports both desktop and mobile platforms. -Don Atherton Amino Group Pty Ltd Xtend is the only program I have ever found with comprehensive back office service capabilities. The interface is user friendly and Xtend makes it easy to access all its capabilities. -Michael Dolger Investment Exchange Xtend has all the features you would expect from a sophisticated trading application, and

more. The customizable feature sets enable the program to satisfy the needs of individual traders. The automated alerts and back office services will be invaluable to most traders. -Dr. Ray Hillman FORESTRY COUNCIL OF CANADA "Xtend is the best trading program out there. It is really customizable, and it is the only one I use." -Mark Tobey Telemark Energy Inc. "Xtend is the only program I have ever found with

comprehensive back office service capabilities. The interface is user friendly and Xtend makes it easy to access all its capabilities. The customizable feature sets enable the program to satisfy the needs of individual traders. The automated alerts and back office services will be invaluable to most traders." -Michael Dolger Investment Exchange "Xtend is the best trading program out there. It is really customizable,

and it is the only one I use."
-Mark Tobey Telemark
